Summary

Full Stack Developer with a strong foundation in frontend technologies and solid problem-solving skills. Proficient in **React**, **Next.js**, **TailwindCSS**, and **JavaScript**. Experienced in solving **DSA** problems, enhancing debugging efficiency and logical thinking. Highly motivated to contribute to a product-focused engineering team and grow through real-world development challenges.

Skills

Programming Languages: JavaScript, C++, Java
Frontend: React.js, Next.js, JavaScript, TailwindCSS, HTML5, CSS3
Backend: Node.js, Express.js, Firebase(Auth)
Database: MongoDB, SQL,
Deployment: Vercel, Netlify
Tools & Platforms: Git, GitHub, Linux

Competitive Programming   Codeforces | Codechef

Solved 600+ problems on various platforms using C++, covering topics such as arrays, greedy algorithms, math, brute force, binary search, graph theory, trees, linked lists, stacks, queues, number theory, bitmasks, dynamic programming, recursion, and backtracking.Currently a Pupil on Codeforces and a 2 star coder on CodeChef.

Projects

1. **TravelEase**   Client | Server | Live
   A full-stack MERN vehicle rental platform with authentication, booking, and full CRUD.
   Features:
   - Implemented secure Firebase authentication with protected routes
   - Built full CRUD operations for vehicles and bookings
   - Added dynamic filtering & sorting for an improved browsing experience
   - Developed a responsive modern UI with TailwindCSS

2. **QuickCart**   Client | Server | Live
   A Next.js-based e-commerce web app with Google login, product management, and a clean responsive UI.
   Features:
   - Integrated NextAuth Google authentication
   - Built protected admin pages for adding and managing products
   - Implemented dynamic product listing and detailed product views
   - Designed a polished, consistent UI with reusable components

Education

B.Sc. in Computer Science & Engineering (CSE)   2022-2025
Bangladesh University of Business and Technology (BUBT)
CGPA: 3.92

Languages :

- Bangla (Native)
- English (Proficient)
